Decades of Trust, Innovation, Support & Excellence

Introduction...

iMee LED is a brain child of Parekh Group, established in 1945 with a vision of honesty, truthfulness and quality. The Parekh Group is counted among the leading business houses having diversified businesses across various sectors with an expertised experience of over seven decades and four generations.

Owing to our rich expertise, knowledge, experience and expertise of our expert team, “we offer a wide range of LED Lights, LED TV’s, Personal & Home care products and much more range”. Our entire product range is under strict supervision of our team with utmost attention to intricate detail so that the best products and services can be conveyed to our clients.

Our team consists of highly skilled and professionally trained people who work hard in close coordination with each other to set up total customer satisfaction. Through an unwavering focus on commitment & delivery, we have charted our way to success in our operations and have won the admiration of our buyers and have built a long term relationship with our esteemed customers.

Assurance of Quality & Excellence has been our key to success since our establishment and we believe that the years ahead will see us trading new grounds, widening the spectrum and expanding our trade horizons even further. We have set a high standard of conduct towards our buyers. Our precise approach to the quality of our manufactured products meets our customers’ demands. We continuously work on improvement of our products, services & ourselves, so that we are able to serve you in the best possible way, today and for years to come.

178° Wide
Viewing Angle

In Plane Switching Panel

In-Plane Switching (IPS) is a type of display technology used in LED TVs that offer several advantages over non-ips anels. IPS panels are known for their superior color accuracy, wide viewing angles, & high-quality image reproduction. Wide Viewing Angles: IPS panels offer wider viewing angles than other panel types, meaning that the picture quality remains consistent even if you view the screen from an angle.

IPS PANEL

Improved Contrast :

IPS panels offer improved contrast ratios, resulting in deeper blacks and brighter whites. This results in a more vibrant and dynamic picture quality.

Low Response Time :

IPS panels typically have a low response time, which means that they can display fast-moving scenes without motion blur or ghosting.

Energy-Efficient :

IPS panels are energy-efficient, consuming less power than other panel types. This can result in lower energy bills and a more environmentally friendly TV.

**DOLBY
AUDIO**

20W | **SURROUND**
SOUND BOX SPEAKERS

DOLBY AUDIO

Advanced technology that adds an immersive sound experience.

iMee Tv brings you the next level audio experience with Dolby Audio, resulting the best experience you can achieve with cinema like surround sound.

Dolby Audio is a suite of technologies that includes Dolby Digital Plus, Dolby Digital, and Dolby Atmos. These technologies are designed to provide a cinematic audio experience by delivering high-quality sound across all devices.

Dolby Digital Plus is a digital audio codec that supports up to 7.1 channels of surround sound. It provides a high-quality audio experience with less compression and higher bit rates compared to other audio codecs. This means that you can enjoy better sound quality with less distortion, even at low bit rates.

Dolby Digital is an older audio codec that supports up to 5.1 channels of surround sound. It is still commonly used in many home theater systems and provides a good audio experience, although not as high-quality as Dolby Digital Plus.

Screen Cast

Now can play your favourite videos and games directly from your smart phone or tablet on this TV using the intelligent Quick Cast feature.

In addition to the official OS, the iMee LED TV One series also features its own screen casting system. This allows users to cast content from their smartphone, tablet, or computer to the TV without the need for cables or additional hardware. Just connect your TV and your smartphone over same swifi and start casting !

Easy access to everything you watch

Wi-Fi

HDMI

USB

Cast

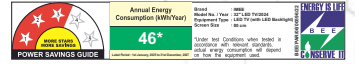

With the iMee LED TV One series screen casting system, users can easily share photos, videos, music, and other content from their mobile devices on the big TV screen. This can be useful for streaming content that may not be available through the TV's apps or for sharing content with friends and family.

Why iMee ?

We are your one stop solution for LED Lights, Fans, Irons, Televisions and much more. We have a wide range of products which are an example of superb amalgamation of both aesthetics, utility and money savings!

We are Different !

Our products are crafted to perfection ! Each and every product speaks for itself! They are unique and are a true replacement for traditional products.

Our Quality Speaks in Itself !

Try it to believe it ! Our products not only look stunningly modern but also address all your needs. All our products are not just high on quality but are reliability personified too. Each and every product goes through our strict QC process. Trust of our customers is our biggest asset ever since the beginning of our journey and we are proudly committed to nurture this trust by continuing to provide best quality products to our cherished customers.

Money Savings !

Our products ensure upto 80% energy savings as compared to other traditional products. Now no need to worry about inflated electricity bills. Relax!

Fits into Regular Fittings !

Our products are designed with such an intention that they should fit into regular fittings thus saving more money of our dear customers. We kept both new construction customers and those who are renovating their homes or offices in mind!

Eco Friendly !

Our products are truly eco friendly and power saving, they have no mercury and lead, our heat sink mechanism works flawlessly ensuring very low heating in the surroundings.

Happy to hear from you !

We believe that the voice of our customers and the employees should be heard, thus, we consider all the valid suggestions and incorporate those for our better performance. We also are available to answer the smallest of your queries and look forward to hire the dedicated efficient young minds.
